

Around the Mulberry Bush by Gary Bate

We go around the mulberry bush because we haven't seen the truth in ourselves and everyone else.

The over-riding consciousness on this planet is control.

To ascend from this planet and thus never die, you just have to give up your attempts at control...

Playing the victim is control

Manipulation is control

Seduction is control

Ignoring someone can be control

Trying to get your own way is control

Ulterior motive is control

Being a tyrant is control

Bribery is control

The consciousness here is all about control and that's why we're all here (we haven't yet risen above our needs to be in control).

Emotions are all about control

Family is about control

Addiction is about control

Making a deal and negotiations are control compromises

We cannot know love until we have given up control

Could it be that we age and die not as a result of clocks ticking? Yes. Could our own consciousness be causing it? Yes.

This is very bold and you will not hear it from anyone else. Of course you can scoff at it if you wish

But how many of you live a life absent of control? I know – none of you (us).

This planet lives in the lower consciousness of control. The higher consciousness of love is the absence of the lower...

I've spilt the beans now – is there any more to say? Don't waste your money on gurus...

There is no esoteric mystery; there's just seeing for yourself what is in plain sight ~ Gary Bate.
